

trust and support of the Guam community. When Typhoon Pamela devastated the island of Guam in 1976, Nanbo Guam's efforts to provide prompt settlements did not go unnoticed. Along with their good reputation came new applicants and increased premium sales. Akira credits this as the basis of Nanbo Guam's success.

Through the years, Nanbo Guam has developed and grown steadily. In 1977, the company began handling life insurance as the general agent for Pacific Guardian Life, Honolulu. In 1978, they established the Sun Rise, Inc., and opened the Japan Food Supermarket. In the 1980's, Nanbo Guam engaged in real estate ventures and revived their import business by establishing the Nanbo Trading Company. In the 1990's, they broadened the scope of their insurance business by concluding another general agency agreement property and casualty insurance with the Nippon Fire and Marine Insurance Co., Ltd., of Japan and by securing a claims agency agreement from the United Services Automobile Association. Akira Inoue's business acumen, innovations and his capable direction is undoubtedly the driving force behind Nanbo Guam's success.

Outside of his business ventures, Akira additionally devotes personal time and resources to civic and community activities. As one of the founding members of the Japan Club of Guam, he served as its first vice-president in 1972. From 1973 through 1977, he served as the club's president. During his tenure, he was instrumental in raising donations for the Christmas Seal Fund Drive. He was also actively involved with the Vietnam Refugees Relief Drive in addition to serving on the Board of Governors of St. John's Episcopal School. Between 1987 and 1989, he was a member of the committee to establish a Japanese school on Guam. Serving once again as president of the Japan Club of Guam from 1992 through 1995, he worked towards the full payment of the construction loan for the Japanese school and organized a relief fund drive for the victims of the 1995 Kobe earthquake. Akira is also a distinguished member of the Rotary Club of Tumon Bay.

For over three decades, Guam's business community has reaped great benefits from Akira Inoue's efforts and dedication. I join his proud family—his wife, Machiko, his sons, Naoyuki and Tetsuji, and daughters, Sachiko and Yoshiko—who, together with the Guam Chamber of Commerce and the people of Guam, celebrate Akira Inoue's contributions and success. I commend and congratulate him for being chosen as this year's "Small Business Person of the Year."

TELECOMMUNICATIONS, TRADE,
AND CONSUMER PROTECTION

HON. EDWARD J. MARKEY

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 8, 2000

Mr. MARKEY. Mr. Speaker, I rise today to introduce legislation requiring the Food and Drug Administration (FDA) study the issue of alleged potential health risks associated with wireless phones. This legislation builds upon a provision that I offered to legislation then-pending in the House Commerce Committee

during the previous Congress. That underlying legislation ultimately was not enacted in the previous Congress and today I offer the wireless health study amendment as a standalone piece of legislation, entitled the "Wireless Phone Health Risk Assessment Act of 2000."

Mr. Speaker, when I first raised the issue of cellular phone safety at a House Telecommunications and Finance Subcommittee briefing I chaired in 1993, there were roughly 15 million people using such phones—today there are over 70 million users of wireless phones. In addition, the FDA, which coordinates Federal oversight of the wireless phone health issue, has previously indicated that a significant research effort over a sustained period of time is needed to provide the greater body of scientific information that scientists and regulators will need to more adequately assess any potential health risks.

It is my belief that because wireless phone companies receive their licenses to operate from the Federal Government, that the government has a responsibility to step up its efforts to address this issue. Indeed, having helped create the wireless revolution over the years by freeing up federally administered airwaves for these new services, I have simultaneously advocated that the government must also have a serious commitment to additional research in order to reassure consumers that any lingering concerns about whether these wireless devices pose a health risk are addressed.

This legislation authorizes \$25 million over a 5-year period for the FDA to analyze health risks associated from radiofrequency emissions from wireless phones. I believe it is a modest but important allocation of a portion of total Federal research funds, an authorization that is specifically dedicated to scientifically assess wireless phone health risks.

CELEBRATING THE 25TH ANNIVERSARY OF THE OKEFENOKEE HERITAGE CENTER

HON. SAXBY CHAMBLISS

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 8, 2000

Mr. CHAMBLISS. Mr. Speaker, today I am proud to honor the 25th Anniversary of the outstanding Okefenokee Heritage Center. It is an honor for the community to be gifted with this great facility for teaching and learning.

The Okefenokee Heritage Center has been an institution serving South Georgia for 25 great years. When the building was finished 1975, it added a world of learning for all ages in the community. This is why I pay tribute to the silver anniversary of this vital facility for Waycross and Ware County. I praise the tireless efforts that the people of Waycross have contributed for this great museum. I hope for continued success in the future and I thank them for their dedication and hard work.

I believe that the following editorial from the Waycross Journal Herald clearly depicts how important this Heritage Center is. I sincerely appreciate the hard work and support of people like Catherine Larkens, Current Director of the Center, Sonya Craven, President of the Board, to all the Board Members, Ware County Commissioner Chairman Roger Strickland, Mayor John Fluker, Dr. William Clark, III and

Gus Karle. Most importantly, I want to recognize Mrs. Sue Clark. As a result of her determination and perseverance, today we celebrate 25 years of the Okefenokee Heritage Center and its significant contributions to our county.

[From the Waycross Journal-Herald, June 1, 2000]

OKEFENOKEE HERITAGE CENTER OBSERVES
25TH

Friends and supporters of the Okefenokee Heritage Center gathered yesterday at the center's Augusta Avenue site to commemorate 25 years of service to this community. It was a memorable, sun-splashed afternoon of short speeches and renewed acquaintances.

Mrs. Sue Clark, wife of well-known Waycross eye surgeon Dr. S. William Clark Jr., is credited with being the primary community figure who conceptualized, promoted and implemented the idea of building a heritage-themed museum in Waycross. It was her perseverance and organizational drive, together with the resources of the Seaboard Coast Line Railroad and several other key players, which helped to make today's heritage center a reality.

In his prepared remarks, former Rice Yard Superintendent A.A. "Gus" Karle commented Wednesday that he located the center's "Okefenokee Chief" steam engine at a South Carolina rock quarry and told Mrs. Clark about his find. He said she contacted the quarry's owners that same day and within days had marched into the Seaboard Coast Line's corporate offices at Jacksonville and arranged to have the locomotive transported to Waycross.

"I got a call from Seaboard CEO Prime Osborne. He mentioned this locomotive and said Sue Clark had just left his office," said Karle. Together with Seaboard's Henry Pigge, plans were soon put into motion to transport the 1912 vintage locomotive from South Carolina to Waycross in December 1973.

The locomotive is the showpiece among the Heritage Center's exhibits. It's a wonderful example of early 20th century technology spared from the salvager's torch and preserved for future generations by Sue Clark's vision.

The locomotive's steam whistle was operating Wednesday, harkening back to a day when the telegraph key was the fastest means of communication and belching, noisy steam locomotives rolled into Waycross from all directions, disgorging passengers and welcoming new ones on those "magic carpets made of steel."

It was America's "Age of Innocence," a time before the horrors of World War II and national ascendancy to superpower status. It was a time when this newspaper was located at the corner of Plant Avenue and Isabella Street (now Jack Williams Park), enabling the late Editor & Publisher Jack Williams Sr. to gaze out his office window at locomotive engineers and their passengers as they rounded the crossing enroute to the Waycross Rail Depot.

His son, the late Jack Williams Jr., said the building's glass windows would actually shake in their frames as these steel behemoths passed outside.

The old building is gone now, but a scaled-down reproduction rests beside the railroad track at the Heritage Center for future generations to enjoy.

What a wonderful facility our Heritage Center has truly become. The entire community owes a debt of gratitude to Sue Clark for her hard work and vision. Her ancestor, the late Dr. Daniel Lott (one of four founders of Waycross in 1871) would be justly proud of what she has accomplished.
